EDUCATION

2022-2025	KURUKSHETRA UNIVERSITY M.Sc. (Tech.) Applied Geophysics	Kurukshetra, Haryana CGPA: 8.56
2019-2022	GAUTAM BUDDHA UNIVERSITY B.Sc. (Hons) Physics	Greater Noida, UP Percentage: 81%

CAREER OBJECTIVE

Aspiring Data Engineer / Analyst with a strong foundation in **Applied Geophysics, Data Analytics, and Machine Learning**, seeking to apply expertise in **energy data analysis, visualization, and engineering workflows**. Passionate about **Python, and Power BI** to solve real-world challenges in the **oil & gas sector**.

SKILLS

- Seismic data processing & interpretation
- Gravity and magnetic methods (CG-5 gravimeter, GSM-19T magnetometer)
- Geophysical data inversion (CNN-based gravity inversion, seismic tomography)
- SQL, Machine learning
- Programming: Python, MATLAB, C++, FORTRAN
- Tools: MS Office Suite (Excel, Word, PowerPoint), Power BI (data dashboards)
- Strong communication, analytical & problem-solving skills

PROJECTS AND DISSERTATION

- Dissertation: Evaluating Optimizer Performance in **CNN-based Gravity Inversion** for 3D Basement Relief Reconstruction at **IIT Roorkee**.
- Developed a Python project for seismic data visualization, enabling efficient analysis
- Developed a Python-based project for automated fault estimation in seismic data using Convolutional Neural Networks (CNN)
- Created a Call Center Trend Analysis Dashboard using **Power BI** for data analytics.
- Frequency-Dependent Attenuation Analysis of Seismic Coda Waves using **Linear Regression** from the 2001 Bhuj Earthquake

INTERNSHIP EXPERIENCE

Directorate General of Hydrocarbons (DGH)

- Worked on the “**Evaluation of Rig Days and Well Productivity in the Mahanadi Basin**” using **Petrel software**, gaining exposure to 3D geological modeling and well correlation.

ONGC, Vadodara

- Completed a 15-day industrial training focused on seismic data acquisition and processing.

AWARDS AND CERTIFICATIONS

- **Accenture Data Analytics and Visualization Job Simulation** (Forage) Gained hands-on experience in data cleaning, modeling, visualization, and presentation..Skills: Pandas, NumPy, Data Manipulation, Data Analysis, Data Visualization, Presentations.
- **Cognizant – Artificial Intelligence Job Simulation** (Forage)Applied AI and machine learning techniques for real-world business cases and Skills: Python, AI/ML, Data Analysis, NumPy, Pandas, Data Manipulation.
- **IIT (ISM) Dhanbad** – Skillful and Interpretable AI/ML of Geoscience Data. Focused on applying AI/ML techniques to geoscience datasets with emphasis on interpretability and domain-specific challenges. Skills: Machine Learning, Data Interpretation, Geoscience AI Applications, Python, Model Explain ability.
